**The Delta Dual V4 packaged pump station has been specifically designed to work in utility with the Delta Cavity Drainage System to collect ground water.**

Suitable for larger floor areas of up to 150m<sup>2</sup> and or a surface area of up to 12m<sup>2</sup>. Where larger surface areas are involved the drainage capacity of a sump chamber and discharge flow rate of the pumps become greater. The delta Dual V4 Sump Pump system offers a flow rate of 3ltrs per second to a pumping height of 3 meters but with a maximum pumping head of 7 meters.

### BENEFITS

- The pump station is delivered as a complete package including chamber, all internal pipe work and two powerful V4 pumps
- Suitable to collect ground water from 150m<sup>2</sup> basement that requires a head height over 3m
- HDPE chamber
- Capable of pumping 12m<sup>2</sup> of surface area in addition to ground water
- Suitable for residential, commercial and heritage buildings

### SPECIFICATION

- NBS Specification R18 (Clause 310) Pumping Stations and Pressure Pipelines
- BS 8102:2009 Type C Drained Protection

### ASSOCIATED PRODUCTS

- AlertMaxx2
- Delta HLA
- Hi-PowerMaxx

# PRODUCT DATA SHEET

## DELTA DUAL V4

Product Code: DMS217

### TECHNICAL DATA

Chamber	Dual V4
Chamber Material	High Density Polyethylene
Volume Below Inlets	137L
Volume Total	273L
Fixed Inlets	3 x 110/160mm
Cable Duct	50mm
Discharge Connection	2"/50mm BSP Class C
Discharge Pipework	2"/50mm BSP Class C
Internal Pipework	1.25"/32mm BSP Class C
Cable Duct Pipework	2"/50mm White Waste Pipe
Vent Pipework	2"/50mm White Waste Pipe
