General

For new and retro fit installations for background or warm air appliance ventilation, offering high free area. GAS8H has a highly efficient retro-fit cowl and requires no mortar for fitment. The cowl has a keyed surface permitting sequent painting. The GAS8H is supplied with a washable foam filter for use as a background vent to reduce cold drafts, noise pollution and dust particles whilst allowing for the transfer of high humidity moisture content to the outside. The foam filter should **NOT** be fitted if used as a non-combustible warm air appliance vent. We recommend the foam filter is inserted into the internal sided spigot.

DETAILS

REF	GAS8H	MANUFACTURING PROCESS	Injection Moulded
BOX SIZE (MM)	415 X 175 X 165	MATERIAL	HIPS – High Impact Polystyrene
PALLET SIZE (M)	1 X 1.2 X 2.25		
FREE AREA	148cm ² (Without Foam Filter)	COLOUR	External Cowl – BROWN, WHITE & TERRACOTTA.
KW AREA	36kW (Without Foam Filter)		Internal Louvre – WHITE
PACKING	Product per box = 1, Boxes per pallet = 192	FOAM FILTER	30ppi Polyester Flame Retardant Reticulated Foam – 4" x 25mm
WEIGHT	Product = 616g, Box = 768g, Pallet = 175kg
