

THE COST OF MASONRY DAMAGE

Cracked or damaged masonry joints look unsightly and can often be a source of leaks and damp in the home, resulting in expensive repairs.

THE TRADITIONAL METHOD

Repairing masonry joints provides a primary defence against water ingress.

However, it can be a difficult, messy and time consuming job when using the traditional method. You can spend more time on preparation and cleaning up than doing the actual job.

Traditional tools

- Trowel
- Hawk
- Mixing bucket
- Water
- Sand
- Cement

Labour-intensive

TAKE THE PAIN OUT OF POINTING

Bostik Express Pointing Mortar quickly repairs damaged masonry joints in brick and stonework - without having to mix mortar.

QUICK AND EASY TO APPLY

Express Pointing Mortar is ready to use and quick and easy to apply with no mixing required, and virtually no waste.

No mess, no waste

Express Pointing Mortar leaves an attractive, rain-resistant finish in next to no time.

- No mixing required
- Can be used on multiple substrates
- Works on damp surfaces
- Rain resistant
- Overpaintable
- Easy to clean
